

The Face of Oculofacial Aesthetic & Reconstructive Surgery

MARYLAND EYE & FACE

Parag Gandhi, MD FACS, Oculofacial Plastic and Reconstructive Surgery

Dr. Parag Gandhi and his team provide a wide range of facial and periocular reconstructive and aesthetic procedures, from laser eyelid surgery to the newest technologies in skin resurfacing, tightening, and enhancements. Board-certified and fellowship-trained with over 18 years of experience, he is known for building connections with his patients during office consultations. Dr. Gandhi is well-regarded as a compassionate surgeon and expert in his field, with a keen commitment to applying his skills and leadership through international service missions that build sustainable programs overseas. He was the recipient of the American Academy of Ophthalmology Achievement Award in 2019 for his work, and numerous other recognitions. With a focus on achieving balanced results and fostering long-term relationships with their patients, Dr. Gandhi and his staff are excited to welcome you to Maryland Eye & Face in Franklin Square.
